

What About Peace?

Chorus x1

Can I sleep in peace? SIP
Can I live in peace? Lip
Will I die in peace? Dip
Will I rest in peace? Rip

Verse

There's a piece to the puzzle that's missing in action/
Peace is missing from the puzzle and here's my reaction/
I get up in the morning turn on my TV/
People dying people crying good morning to me/
"Good morning USA America here's your facts/
Gas went up today again and people dead in Iraq/
And that's your morning news I'll see you at twelve"/
Edit evening in for morning and that should go well/
Barely work and get money, the American dream/
Foreigners come to work hard and we yell and we scream/
Mexicans are crossing the border but I don't even care/
Cause if your happier over here then why be over there?/
P is for people E is for equal/
A is for all people are created equal/
C is for church and E is for earth/
So if you put them together for what they're worth/
PEACE is the word/
Clap your hands if you agree for peace in the world/

(Slow rally clap)
